

About Us

NCRL is a trusted partner in quality and compliance. Providing reliable solutions for Pharma R&D, Chemical, Analytical Laboratories Logistics and Services. We specialize in cost-effective custom synthesis, impurity profiling, and analytical solutions that support regulatory-compliant research and enhance the accuracy of drug development processes.

Narayan chem research & laboratory

Be the Support Everyone

- Deliver high-quality impurity reference standards & secondary standards.
- Custom synthesis of impurities, isomers, nitrosamines & complex molecules.
- Analytical services (validations, HPLC, GC, UV analysis)
- Laboratory logistic supplier (solvents, reagents, plasticsware, glassware bulk only)

Impurity standards & Custom Synthesis

High-quality impurity reference standards & secondary standards

Custom synthesis of:

- Impurities, Isomers, Nitrosamines, Complex Molecules
- 24-72 hours shipping for in-stock products

Hands on Training & Analytical Support

(HPLC, LCMS, GC, PREP HPLC, TGA, FTIR)

Theory & practical training with live samples

Method development & validation

Impurity isolation & chiral separation

Degradation & stability studies

1-day workshops to 3-month internships

Software expertise: Empower / Chromeleon / Lab solution

Our Equipments

Shimadzu HPLC, LCMS, GC

Prep HPLC & FTIR & TGA 800°C Analyzer
